To Whom It May Concern:

Del Monte Foods maintains a complete Product Recall Program to ensure quick, efficient and effective handling of any recall or withdrawal of products distributed by Del Monte Foods. Del Monte's recall program provides the organizational framework and administrative procedures for lot code product tracing, plans for physical recovery of involved stock and communication steps with our customers. Mock recall drills are performed twice a year at each Del Monte production facility to assess the program's effectiveness.

Del Monte maintains 24 hour emergency contact service. During normal business hours, a Del Monte representative can be reached at 1-800-543-3090. If an urgent situation arises after normal business hours, a Del Monte representative may be reached by calling (412) 222-8500.
